

# 113<sup>th</sup>

COMMENCEMENT  
CEREMONY

MAY 18, 2024 | 9:00 AM & 2:30 PM

Thaddeus Stevens  
College of Technology

## DEAR STUDENTS & FAMILIES,

Today is a consequential day. After so many years of dedication, overcoming challenges, and showcasing the grit Thaddeus Stevens College students are known for, today these students step into their future.

Even before our students set foot on campus, we come alongside them focused on their empowerment and success. We commit every resource at our disposal to equip them with the confidence to forge their own path, preparing them with skills to build opportunities for themselves. They are ready to launch into careers that make our communities stronger.

We are thrilled to be a part of their journey. We invite you all to stay connected with Thaddeus Stevens College in the future, whether through attending events, following activities on social media, or connecting with us directly as a community member or business. You will always be welcome here.

A handwritten signature in black ink, reading "Pedro A. Rivera II". The signature is fluid and cursive, with a large, stylized "P" and "R".

**Pedro A. Rivera II**, *President*

## CONTENTS

**01** Order of Events

**03** Award Bios

**05** Class of 2024

**19** Thaddeus Stevens Legacy

**24** College Leadership

**25** Faculty & Directors

**27** The Regalia Costume

**28** National Anthem

**28** Alma Mater

*Morning*  
ORDER OF EVENTS | 9:00 AM

**\*PROCESSIONAL**

*Pomp and Circumstance*

**\*MACE BEARER |** Amy Jo Mumma-Frank

**\*PRESIDING |** Pedro A. Rivera, II, Ed.D.

*President, Thaddeus Stevens College of Technology*

**\*INVOCATION |** Reverend Roland P. Forbes, Jr.

*Ebenezer Baptist Church*

**\*THE NATIONAL ANTHEM |** John K. Kuro

*Electronic Engineering Technology Class of 2025*

**INTRODUCTIONS & REMARKS |** President Pedro A. Rivera, II, Ed.D.

**STUDENT SPEAKER |** Hilarie Gbotoe

**PRESENTATION OF HONORARY DOCTORATE DEGREE**

President Pedro A. Rivera, II, Ed.D.

**STUDENT SPEAKER |** Reggan Douglas

**PRESENTATION OF DISTINGUISHED SERVICE AWARD**

President Pedro A. Rivera, II, Ed.D.

**PRESENTATION OF CLASS OF 2024 |** Megan Dancause

**INVESTITURE |** Jeffrey Sterner

*Chair, Board of Trustees*

**INDUCTION INTO THE ALUMNI ASSOCIATION AND RECEIVING GIFT**

Joseph Wysock, III

*President, Alumni Association*

**\*ALMA MATER |** John K. Kuro

**\*BENEDICTION |** Reverend Roland P. Forbes, Jr.

**\*RECESSIONAL**

*Please remain in place until the stage party and graduates have recessed.*

*\*Participants and guests are requested to stand.*

# *Afternoon*

## ORDER OF EVENTS | 2:30 PM

### \*PROCESSIONAL

*Pomp and Circumstance*

\*MACE BEARER | Charles T. Byers

\*PRESIDING | Pedro A. Rivera, II, Ed.D.

*President, Thaddeus Stevens College of Technology*

\*INVOCATION | Reverend Roland P. Forbes, Jr.

*Ebenezer Baptist Church*

\*THE NATIONAL ANTHEM | John K. Kuro

*Electronic Engineering Technology Class of 2025*

INTRODUCTIONS & REMARKS | President Pedro A. Rivera, II, Ed.D.

STUDENT SPEAKER | Michael Keene

PRESENTATION OF HONORARY DOCTORATE DEGREE

President Pedro A. Rivera, II, Ed.D.

STUDENT SPEAKER | Brent Kehoe

PRESENTATION OF DISTINGUISHED SERVICE AWARD

President Pedro A. Rivera, II, Ed.D.

PRESENTATION OF CLASS OF 2024 | Megan Dancause

INVESTITURE | Jeffrey Sterner

*Chair, Board of Trustees*

INDUCTION INTO THE ALUMNI ASSOCIATION AND RECEIVING GIFT

Joseph Wysock, III

*President, Alumni Association*

\*ALMA MATER | John K. Kuro

\*BENEDICTION | Reverend Roland P. Forbes, Jr.

\*RECESSIONAL

*Please remain in place until the stage party and graduates have recessed.*

*\*Participants and guests are requested to stand.*

**MIGUEL CARDONA, Ed.D.**  
*U.S. Secretary of Education*  
*Honorary Doctorate Degree Recipient*

Dr. Miguel A. Cardona became the 12th U.S. Secretary of Education after a distinguished career as an elementary school teacher, principal, district administrator, and Connecticut education commissioner. He is a firm believer that being an educator isn't only a job – it's an extension of your life's purpose.

Secretary Cardona's focus throughout his career on raising the bar for equity and excellence for all learners guides his leadership of the agency in service of the nation's 65 million students and their families. Secretary Cardona oversaw efforts to safely reopen schools for in-person learning, going from only 46% of school buildings open when President Biden took office to nearly 100% open just nine months later, while distributing over \$130 billion in federal education funding for P-12 schools and \$40 billion for colleges; working to increase higher education access, affordability, and student success; and leading unprecedented federal efforts to transform the country's student loan system. To date, nearly \$137 billion in debt relief has been approved under Secretary Cardona's leadership. Across all of these priorities, Secretary Cardona has highlighted the urgency of seizing the moment through intentional collaboration – and the opportunity we have not only to recover from the pandemic, but to reimagine a more equitable education system that works better for all.

## ALEX MUNRO

*Former Executive Director of the Thaddeus Stevens Foundation  
Distinguished Service Award Recipient (Posthumous Award)*

Alex graduated from the Masonry program in 1960 and went on to spend 30 years in the masonry construction field. He worked as a bricklayer and was a supervisor in Eastern Pennsylvania. Alex's tradesmanship work included helping to build Park City Mall in Lancaster, Pa.

He returned to Thaddeus Stevens College to teach first-year masonry students and then was brought on staff as the Executive Director of the Thaddeus Stevens Foundation, also leading alumni engagement. He served the College for more than 30 years in that role, championing the advancement of the College's programs and facilities expansions. He felt that the College was his home and worked endlessly to make it a place where students felt safe, supported, and successful. Alex was dedicated to campaigning for the pivotal experience an education can be, and that the skilled trades can be a way to economic empowerment.

He left his mark throughout the College's campus, including on the Memorial Gardens that he helped to build by hand along with other College leadership and staff. Alex's family continued in his footsteps, with four of his grandchildren attending and graduating from Thaddeus Stevens College.

His legacy can be felt and seen by generations of graduates at Thaddeus Stevens College.

# CLASS OF 2024

Abarca, Anthony †	Plumbing Technology
Acord, Grace +†	Graphic Communications & Printing Technology
Acosta, Victor †	Automotive Technology
Acosta, Joel ~†	Electro-Mechanical Technology
Albert, Julian +†	Engineering CAD Technology
Almony, Phillip +†	Welding Technology
Anderson, James †	Heating, Ventilation & Air Conditioning-Refrigeration
Anding-Jones, Ian †	Masonry Construction Technology
Andrade, Dariel †	Residential Remodeling Technology
Angelilli, Cameron *†	Computer Software Engineering Technology
Angstadt, Cole †	Electrical Technology
Archer, Nicholas *†	Collision Repair Technology
Armstrong, John †	Welding Technology
Bach, Josef +†	Electro-Mechanical Technology
Badgley, Adam **†	Engineering CAD Technology
Baker, Brady *†	Metals Fabrication & Welding Technology
Balbuena, Aided †	Automotive Technology
Baldwin, Vincent †	Metals Fabrication & Welding Technology
Barainyak, Joshua ~†	Electrical Construction & Maintenance
Baum, Turk ~†	Electrical Technology
Beauregard, Hunter ¶†	Carpentry Technology
Beebe, Rylan †	Cabinetmaking and Wood Technology
Beekley, Brett †	Metals Fabrication & Welding Technology
Bell, David **†	Diesel Technology
Bender, Kylie †	Computer & Network Systems Administration
Benning, Marcus †	Masonry Construction Technology
Bernard, Alexander †	Automotive Technology
Betson, Christopher ~†	Cabinetmaking and Wood Technology
Betts, Zachary †	Business Administration
Bitler, Joel **†	Architectural Technology
Bittorie, Colby †	Automotive Technology
Bitts, Cameron *†	Plumbing Technology

\*\* Summa Cum Laude 3.95 - 4.00

\* Magna Cum Laude 3.65 - 3.94

+ Cum Laude 3.35 - 3.64

- Honors 3.25 - 3.34

(GPA does not include the spring 2024 semester)

§ Military Service

† Certificate

‡ Associate in Applied Sciences

¶ Phi Theta Kappa (gold stole)

Honor students with gold braid

Bixler, Sarah **†	Automotive Technology
Blauch, Isabella †	Diesel Technology
Bobo, Devin †	Business Administration
Borg, Erik *†	Heating, Ventilation & Air Conditioning-Refrigeration
Bowen, Marlowe +†	Heating, Ventilation & Air Conditioning-Refrigeration
Boyer, Jordan ~†	Electro-Mechanical Technology
Bradley, Adam +†	Electro-Mechanical Technology
Breneman, Joshua **†	Welding Technology
Brill, Tyler †	Automotive Technology
Brown, Tremayne ~†	Masonry Construction Technology
Brown, Chloe *†	Automotive Technology
Brown, Jack +†	Cabinetmaking and Wood Technology
Bruno, Matthew †	Electrical Construction & Maintenance
Buohl, Alexander †	Electro-Mechanical Technology
Butler, Logan *†	Electrical Technology
Campbell, Edward †	Business Administration
Campbell, Jacob †	Metals Fabrication & Welding Technology
Carrigan, John *†	Diesel Technology
Carroll, Ryan +†	Heating, Ventilation & Air Conditioning-Refrigeration
Carter, Brayden †	Computer & Network Systems Administration
Certo, David †	Electrical Construction & Maintenance
Chamblee, Nahif †	Automotive Technology
Chapman, Darrell †	Carpentry Technology
Childs, Benjamin †	Carpentry Technology
Christian, Ace +†	Diesel Technology
Christman, Donovan *†	Welding Technology
Christopher, Emmett ¶†	Masonry Construction Technology
Ciano, Ryan **†	Welding Technology
Ciaverelli, Roman †	Welding Technology
Cicerini, Jacob †	Electrical Technology
Cinelli, Teresa *†	Heating, Ventilation & Air Conditioning-Refrigeration
Cipriano, Nathan *†	Carpentry Technology
Clagg, Ryland +†	Electrical Technology
Cleveland, Jayden †	Electrical Technology
Cline, Scott \$†	Electrical Construction & Maintenance
Clouse, Reuben *†	Welding Technology
Cobb, Anthony *†	Heating, Ventilation & Air Conditioning-Refrigeration
Coleman, Dylan +†	Automotive Technology
Colonna, Christian *†	Heating, Ventilation & Air Conditioning-Refrigeration
Colton, Jonathan **†	Computer Software Engineering Technology
Concepcion, Amaury †	Graphic Communications & Printing Technology

Contreras, Albin *†	Business Administration
Cooper, Byron-Wayne †	Architectural Technology
Corea, Albert †	Automotive Technology
Cotten, Joseph Ammon †	Mechanical Engineering Technology
Creek, Ethan +†	Architectural Technology
Crognale, Riley **†	Carpentry Technology
Cruz, Jose †	Electrical Construction & Maintenance
Cruz Flores, Juan ~†	Automotive Technology
Cutler, Grant †	Masonry Construction Technology
Dao, Luong S*†	Automotive Technology
Darlington, Serena †	Welding Technology
Davenport, Michael †	Electrical Construction & Maintenance
Davies, Maison +†	Electrical Construction & Maintenance
Davis, Blake *†	Computer Software Engineering Technology
Dawkins, Dennis †	Plumbing Technology
De la Cruz, Mariannie *†	Business Administration
Dejewski, Matthew +†	Mechanical Engineering Technology
Delgado, Oscar †	Computer Software Engineering Technology
Delp, Benjamin +†	Electro-Mechanical Technology
Delphais, Nicholas ~†	Carpentry Technology
Desir, Marc †	Computer Software Engineering Technology
Develin, Ian *†	Diesel Technology
Deverter, Nolan +†	Heating, Ventilation & Air Conditioning-Refrigeration
Divalerio, Dominic †	Electrical Technology
Divenyi, Nikolas †	Plumbing Technology
Dixon, Charles †	Residential Remodeling Technology
Doll, Logan *†	Automotive Technology
Dorsey, Lucas †	Engineering CAD Technology
Douglas, Reggan +†	Business Administration
Douglas, James ¶*†	Computer Software Engineering Technology
Doyle, Jacob †	Electrical Technology
Drake, Nathaniel †	Computer Integrated Machining
Drummond, David †	Computer Software Engineering Technology
Duffault, Kevens †	Carpentry Technology
Eckert, Lucas †	Automotive Technology
Ehman, Joseph †	Engineering CAD Technology
Eichelberger, Jacob †	Electro-Mechanical Technology
Eller, Ryan †	Electrical Technology
Emrey, Kyle †	Computer & Network Systems Administration
Engler, Matthew †	Electrical Construction & Maintenance
Erb, Jared ~†	Water & Environmental Technology
Ericson, William *†	Architectural Technology

Estrada, Ruben ¶†	Electrical Technology
Fahnestock, Tyler ‡	Automotive Technology
Farley, Gerald +‡	Heating, Ventilation & Air Conditioning-Refrigeration
Farnan, Kristofer †	Electrical Construction & Maintenance
Feliciano, Fernando ¶†	Electrical Technology
Fetzer, Liam †	Electrical Construction & Maintenance
Fick, Brett +‡	Welding Technology
Finkin, Brendan ‡	Graphic Communications & Printing Technology
Flores, Xavier ‡	Carpentry Technology
Flores Ortiz, Jose *‡	Architectural Technology
Folkenroth, Kylie *‡	Architectural Technology
Foreman, Brian \$+‡	Electrical Technology
Fox, Zacharias ‡	Cabinetmaking and Wood Technology
Francer, Kolton †	Plumbing Technology
Frankford, Kylynn †	Graphic Communications & Printing Technology
Frazier, Ny'aud †	Electrical Construction & Maintenance
Frederick, Jonathan ‡	Water & Environmental Technology
Frederick, Timothy ‡	Water & Environmental Technology
Freeman Jr, Sean ‡	Masonry Construction Technology
Freligh, Alex *‡	Business Administration
Friedman, Miles ~‡	Electronic Engineering Technology
Frymyer, Jordan ‡	Diesel Technology
Fulk, Bryere +‡	Metals Fabrication & Welding Technology
Fulp, Kyaire ‡	Plumbing Technology
Gaillard Ramos, Tyana ~‡	Mechanical Engineering Technology
Garces, Danny ‡	Collision Repair Technology
Garcia, Amaury ‡	Computer Software Engineering Technology
Garcia, Andy †	Electrical Construction & Maintenance
Gardner, Carter ‡	Computer Integrated Machining
Garvey, Emily ‡	Water & Environmental Technology
Gates, John ‡	Masonry Construction Technology
Gates, Jayden ‡	Plumbing Technology
Gbotoe, Hilarie ~‡	Water & Environmental Technology
Gegg, Jeremy ~‡	Automotive Technology
George, Kody ‡	Computer Integrated Machining
Georgescu, Ryan †	Electrical Construction & Maintenance
Gery, Madison ‡	Metals Fabrication & Welding Technology
Geyer, Xander ‡	Metals Fabrication & Welding Technology
Giblin, Finn ‡	Residential Remodeling Technology
Gilbert, Donald +‡	Engineering CAD Technology
Gilmore, Hunter +‡	Architectural Technology
Glatfelter, Cameron ‡	Mechanical Engineering Technology
Gonzalez, Nyla ‡	Business Administration
Gonzalez, Kevin ‡	Masonry Construction Technology

Gonzalez, Nathan *†	Electro-Mechanical Technology
Good, Brian †	Plumbing Technology
Goodman, Jeremy ¶*†	Electrical Technology
Gordon, Jonathan +†	Computer & Network Systems Administration
Gramling, Marcus S*†	Residential Remodeling Technology
Grata, Benjamin +†	Electronic Engineering Technology
Green, Tyler †	Metals Fabrication & Welding Technology
Greenwalt, Joseph †	Carpentry Technology
Gresh, Michael +†	Carpentry Technology
Grove, Hannah *†	Water & Environmental Technology
Grzywinski Jr, Jude +†	Heating, Ventilation & Air Conditioning-Refrigeration
Guerrero Medina, Franklin *†	Computer Software Engineering Technology
Guers, David ¶*†	Carpentry Technology
Guttman, Jacob †	Welding Technology

Thaddeus Stevens College of Technology (The College) does not discriminate in admissions, employment, or in any of its educational programs or activities on the basis of race, color, ethnic or national origin, religion, sex (including pregnancy), sexual orientation, gender identity/expression, disability, age (as applicable), status as a protected veteran, genetic information, or any other legally protected classification. All College faculty, staff, students, contractors, consultants, and volunteers are responsible for understanding and complying with this policy. Reports of discrimination and harassment may be filed to Marian V. Wilson, PhD at (717) 391-1365.

# THADDEUS STEVENS LEGACY

Thaddeus Stevens was born in Danville, Vermont, on April 4, 1792. He was the second of four boys whose parents were Sarah and Joshua Stevens. Thaddeus was born with a clubfoot, which made it difficult for him to walk. Thaddeus's older brother, Joshua, was born with two clubfeet. In the late 1700s, any physical deformity was seen as a sign from God that the family had committed some serious secret sin, and as a consequence, the family was ridiculed and shunned.

Joshua Stevens, Sr. was an alcoholic and abusive man who had spent his life as a poor man. The family lived in abject poverty on a small farm. By the time Thaddeus was 12, his father had abandoned the family. Sarah Stevens was a kind woman with great energy, a strong will, and a deep religious faith. Sarah realized the only hope for her eldest two sons was gaining an education. She scraped enough money together to enroll them in the nearby one-room Peacham School. Thaddeus was frail, poor, and not particularly attractive. Consequently, he was teased and taunted mercilessly by other children throughout his childhood. He became very shy and was extremely sensitive. Thaddeus excelled in school, however. It became obvious that he had great intelligence and a special aptitude for debating. Upon completion of his education at Peacham, Thaddeus was accepted at Dartmouth College. He was the poorest student at the College. As a result, he was an outcast—just as he had been throughout his childhood. Even

though he was more qualified than most of his peers, he was not nominated for Phi Beta Kappa, an honors fraternity.

Thaddeus Stevens graduated from Dartmouth and accepted a teaching position in York, Pennsylvania. He studied law in the evenings and passed the bar exam in a year. He set up practice in Gettysburg and later moved to Lancaster. In his first year, he successfully argued nine out of ten cases before the Pennsylvania Supreme Court, an unprecedented feat. Word of his ability and success spread throughout the region, and he was inundated with clients. After five years, he owned a house and lot, along with several other properties, and he was able to purchase his mother a 250-acre farm with 14 cows. He said that buying her the farm was the “greatest satisfaction of his life.”

In 1833, Thaddeus Stevens was elected to the Pennsylvania House of Representatives as an anti-Mason. Anti-Masons opposed Freemasonry because of its secrecy, oaths, and religious pageantry. Stevens objected to it because of his personal disdain of exclusionary clubs and societies. During his time in the General Assembly, the accomplishment Thaddeus Stevens was most proud of was his effort to institute free public education. In 1830's America, there were practically no free public schools. In a few places, poor children could attend school if their parents would publicly admit poverty; however, this was very rare. When the Free School Bill was introduced in the Pennsylvania House

# THADDEUS STEVENS LEGACY

of Representatives, Stevens became an ardent supporter. He collaborated with Governor Wolfe to get the bill passed. Unfortunately, when legislators returned to their districts, there was an uproar. People believed free education was too expensive, and some opposed the bill because they had their own religious schools. Over 32,000 individuals signed a petition to repeal the new legislation. The Senate quickly passed a repeal bill which then went to the House. Stevens took the floor to defend the original bill. There was standing room only as most of the Senate filled the gallery. Stevens began his speech by using statistics to show how a state system of free schools was more efficient and ultimately less costly than the existing system. He said the repeal act should be called, "An act for branding and marking the poor, so that they may be known from the rich and the proud." After he finished, he limped

back to his seat to the cheers of the entire assembly. The House suspended the rules and amended the Repeal Bill into an act that actually strengthened the original Free School Act and passed it. The Senate immediately followed suit. The result was to give Pennsylvania a statewide free public school system an entire generation before New York, New Jersey, Connecticut, Rhode Island, and the entire South. This is why Stevens is referred to as the savior of free public education in Pennsylvania.

This is an example of Stevens drawing from his own background and experience to attack privilege based on anything other than merit. This instance also reflects his fundamental belief that education is the great equalizer.

An important part of Thaddeus Stevens' legacy is his philanthropy. Throughout his life, he could never recall the poverty

and discrimination of his childhood without great pain, which sensitized him to the oppression and human suffering in the world. He simply could not bear to hear or see suffering if his money or legal aid could relieve it. He gave of them both almost without limit. He did this irrespective of race, religion, national origin, or political affiliation. Even his harshest critics said he was charitable, kind, and lavish with his money in the relief of poverty. One indicator of his generosity was that at the time of his death, he had over \$100,000 in notes from individuals to whom he had loaned money and from whom he had never been repaid. In his will, he left \$50,000 to establish a school for the relief and refuge of homeless, indigent orphans.

This original bequest has evolved into Thaddeus Stevens College of Technology. His will stated the following: "They shall be educated in various branches of English education and industrial trades and pursuits. No preference shall be shown on account of race or color in their admission or treatment. Neither poor Germans, Irish or Mahometan, nor any others on account their race or religion of their parents, shall be excluded. They shall be fed at the same table."

He defended and supported many persecuted groups. However, the defense of runaway or fugitive slaves gradually began to consume the greatest amount of his time, until the abolition of slavery became his primary political and personal focus. He was actively

involved in the Underground Railroad, assisting runaway slaves to get to Canada, sometimes as many as 16 a week.

Thaddeus Stevens was elected to the United States House of Representatives from 1849-1853 and from 1859 until his death in 1868. This was the period leading up to and including the Civil War and the beginning of Reconstruction. During this time, Stevens became the most powerful congressman in Washington. He was responsible for funding the war effort and later Reconstruction. His goals during this period were the following: (1) to abolish slavery; (2) to accord individuals full legal rights irrespective of race; (3) to accord individuals voting rights irrespective of race; (4) to empower African Americans in the South by redistributing power and wealth as a result of the Reconstruction.

Stevens' legislative legacy at the Federal level are the 13th, 14th, and 15th Amendments to the Constitution, which serve as the basis for all civil rights legislation. Stevens drafted his own version of the 13th Amendment, but when it failed to gain support, he shepherded a more popular version through Congress. It ended slavery in all states, whereas the Emancipation Proclamation only abolished slavery in the Confederacy. Stevens guided the 14th Amendment through Congress. This amendment established a national citizenry with all citizens given equality before the law, which no state could alter. He was disappointed because the amendment still made references to males only, allowed

## THADDEUS STEVENS LEGACY

states to restrict voting rights based on race, and allowed confederates to vote.

Stevens' was outraged over the failure of Reconstruction at the end of the Civil War. He wanted the wealthy white political power structure of the South to be dismantled and redistributed and proposed that every black free man should receive 40 acres and a mule. Unfortunately, any chance of Stevens' vision becoming a reality was lost when Abraham Lincoln was assassinated, and Andrew Johnson, the Vice President, became President.

Stevens despised Johnson and worked to impeach him. The final vote fell one vote short, but Johnson was permanently weakened and reduced to a figurehead for the rest of his term, being replaced by Ulysses Grant in 1868.

Thaddeus Stevens died at midnight on August 11th, 1868. The public expression of grief in Washington was second only to Lincoln's. His coffin lay in State at the Capitol Rotunda, flanked by a Black Union Honor Guard of Massachusetts. 20,000 people, half of whom were black free men, attended his funeral in Lancaster. He chose to be buried in the Schreiner-Concord Cemetery because it was the only cemetery that would accept all races. He wrote the inscription on his head stone that reads: "I repose in this quiet and secluded spot, not from any natural preference for solitude, but finding other cemeteries limited as to race, by charter rules, I have chosen this that I might illustrate in my death the principles which I advocated through a long life, equality of man before his Creator."

Stevens dreamed of a socially just world, where unearned privilege did not exist. He understood from his own experience that being different or having a different perspective can enrich society. He knew that differences among people should not be feared but celebrated. Thaddeus Stevens College of Technology is a living monument to our founder's legacy. As such, the College continually strives to provide under-privileged individuals with opportunities and to create an environment in which individual differences are valued and nurtured.

# THE REGALIA COSTUME & CEREMONY

The origins of academic regalia can be traced back to the 12th and 13th centuries, when university classes were taught by clerics that wore robes for warmth. The original college classrooms in those days did not have central heating! So, the teaching clerics wore robes with hoods. The hoods had a scarf tail that they wrapped around their necks to keep in the warmth. Hoods today represent a conferred doctoral or masters degree. The university colors and the color of the discipline are lined in the hood. Today the scarf tail has been removed but the significance of the hood remains intact since the 12th century. Modern day academic regalia, consisting of robes, mortarboard or caps, hoods, and tassels are the direct academic descendants of the cleric robes. Academic regalia is part of the rich tradition of college life spanning over 900 years!

The mortarboard, or cap, is from the hood of the clerics. The cap has a tassel on it. At the beginning of the commencement the tassel hangs on the right side before the commencement and is moved to the left side after the commencement. The moving of the tassel symbolizes the exact moment the degree is granted. This is a very powerful part of the ceremony.

The tassel represents the academic mace, which is the symbol of authority for the degree granting institution of higher education. It represented the university's power to grant degrees. Therefore, your academic tassel on your mortarboard or cap is directly connected to the academic mace. When the commencement ceremony begins, your tassel is on the right side of the mortarboard. When a degree has been officially conferred during the ceremony, the tassel is moved to the left side of the mortarboard. The movement of the tassel represents the symbolic power of the academic mace. The academic mace, originally a weapon of war, can be traced back to ancient Greece government, and is used to symbolize the power the university has to confer degrees. The academic mace has now become the symbol of the power of universities to confer degrees to candidates who have earned the privilege of the degree.

The entering procession is usually led by the senior faculty member carrying the mace, the college trustees, administrators, speakers, faculty, and then the candidates for degrees.

The colors indicative of the various fields of learning as represented by the division banners include: orange representing disciplines in the engineering technologies, blue in pedagogy with yellow and crimson borders representing the sciences and humanities, and drab representing commerce with borders in green representing health sciences and orange representing technologies.

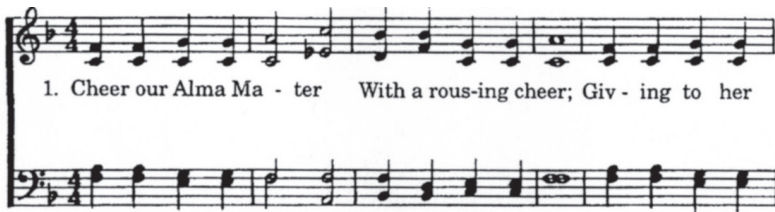

The exiting procession is usually lead by the chief marshal carrying the mace, the platform party, and then the conferred degree recipients.

# NATIONAL ANTHEM

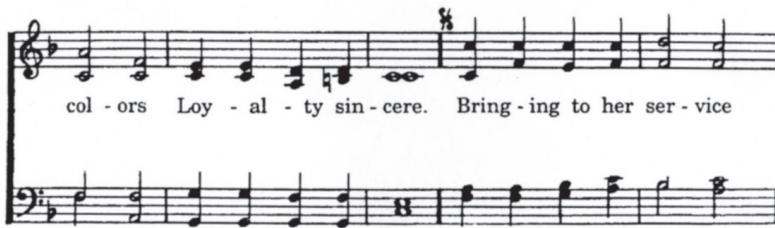

Oh, say can you see by the dawn's early light  
What so proudly we hailed at the twilight's last gleaming,  
Whose broad stripes and bright stars thro' the perilous fight,  
O'er the ramparts we watched were so gallantly streaming.  
And the rocket's red glare, the bombs bursting in air,  
Gave proof thro' the night that our flag was still there.  
Oh, say does that star spangled banner yet wave  
O'er the land of the free and the home of the brave.

## ALMA MATER

*Tune by James Mountain*

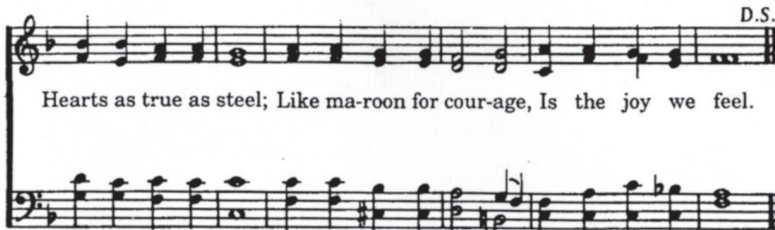

1. Cheer our Alma Ma - ter With a rous-ing cheer; Giv - ing to her

col - ors Loy - al - ty sin - cere. Bring - ing to her ser - vice

REFRAIN: Cheer our Al - ma Ma - ter,

Hearts as true as steel; Like ma-ron for cour-age, Is the joy we feel.

Cheer our no-ble school: Al-to-geth-er, com-ra-des; Thad-deus Ste-vens School.
